

# Your Support is Priceless

*The NYA Legacy Greenway project is too expansive and important to be completed by "the City" as a public project. Your support is needed to move the project ahead and to attract outside funding and regional support. Help us help you build your children's community inheritance!*

## *How to Help*

- Participate in the development of a concept plan
- Help form a NYA Legacy Greenway Non-profit Agency
- Ask your County and State Officials to support the Project
- Talk to your friends and neighbors about creating a legacy greenway
- Host a neighborhood meeting about how to connect to the NYA Legacy Greenway
- Attend meetings
- Offer constructive advice to the Mayor and Council, the Planning Commission, and the Park/Recreation Commission
- Don't let this effort be shelved
- Give the NYA Legacy Greenway the 'legs' it needs to succeed
- Talk to your children and grand children about this effort, ask them to be involved
- Stay informed
